DEPARTMENTAL CASUAL DAY

Officials of Department of Transport and community Safety celebrated Casual Day on 6 September 2019. Casual Day is an annual fundraising project that encourages people to dress differently for work for a day. To earn this right, they make a donation for the official Casual Day, T-Shirt, Cap and sticker. Proceeds benefit people with disabilities. Casual Day is a way for the disability sector to speak with one voice about ushering in a society that values human rights, inclusion, and diversity.

WATERBERG DISTRICT DONATES SANITARY TOWELS ON CASUAL DAY

No study for days, no going out, no access to hygiene. This happens every day to young women in South Africa. Officials from Waterberg District decided to do something about that by donating sanitary towels to learners at Thusang Special School in Bela-Bela on 6 September 2019. For these girls it is too expensive for them to buy sanitary towels. This problem affects young girls in schools.

The goal is to help girls reclaim the dignity that poverty denies them and enable girls to make a lasting and positive impact on the communities they live in and society as a whole.

This is just the beginning but not the end.
